

Anzac

2320/2321 *Dot Matrix printer*

The Anzac 2320/2321 is a rugged, economical desktop printer for IBM's Mid Range environment, attaching via twinaxial or twisted pair cabling to IBM's Systems 3X and AS/400 computers. Simple to operate, and very compact, the Anzac 2320/2321 is a favorite for those locations where computer expertise is at a premium, such as warehouses or remote offices.

Winning features in more detail:

Easy paper loading.

Standard paper loading is from the back of the printer. Simply place the stationery in the push tractors, and the Anzac 2320/2321 will autoloading to top of form at the flick of a lever. For heavier multi-part stationery, a pull tractor option is available, which offers a straight paper path through the printer.

Paper path options.

The Anzac 2320/2321 also supports single sheet insertion. Press the "Park" button to park the continuous stationery, move the paper path lever to single sheet, and you are ready for single sheet insertion.

Bar Codes.

The Anzac 2320/2321 prints sixteen different bar codes, including POSTNET. These are printed using AAPF, Anzac's high level plain text language, which is compatible across Anzac's dot matrix and laser printers. Same command, same result.

Clip in ribbons.

For clean-hand ribbon changes in seconds, the Anzac 2320/2321 printers have the cleanest ribbon change of any printer ever built. The ribbon cartridge is an automatic re-inking ribbon, with a three million character life.

Noise level.

At 52dB(A), the Anzac 2320/2321 printers are among the quietest in the business. Create a pleasant work environment for all the staff with whisper-quiet printing.

Anzac Support and Maintenance.

Long known for its outstanding maintenance and support operation, Anzac staff are no further than an 800 call away from solving your problems. Ask around, and don't be surprised at the good things you hear. Anzac is the printer supplier of choice for many of the world's largest companies because of the excellent long term support Anzac provides.
