

Anzac

3024 Laser printer

The Anzac 3024 is a direct twinax attachment laser printer for IBM's Mid Range Systems (IBM System 36, 38 and AS/400). It is designed for medium volume, high quality print applications, delivering up to 100,000 pages per month of perfect letter quality printing. Attaching as an IBM 3812-1 printer directly to the IBM Systems via either twisted pair or twinax cabling, the Anzac 3024 offers full compatibility with its IBM equivalent. Further support for POSTNET and bar codes are provided, as well as full support for the major forms overlay packages available to IBM's AS/400 users.

Just a few winning features in more detail:

Simple, reliable operation.

The Anzac 3024 is a perfect paper manager. Stationery problems such as paper jams simply do not happen. And with a single consumable cartridge which contains both toner and drum, there is only one consumable component to replace.

True 24 page per minute performance.

The Anzac twinaxial controller, which is up to 300% faster than other alternatives, guarantees a true 24 page per minute performance level even when printing dense 198 column by 66 line reports.

Print quality.

At 600 by 600 dot per inch resolution, the Anzac 3024 prints up to 625% more dots per square inch than the IBM 3816. This results in impressively crisp printing, particularly on smaller fonts.

Medium to heavy duty.

Rated at 100,000 pages per month, the Anzac 3024 is the perfect choice as a departmental printer for servicing the needs of many users.

Forms Overlays.

The Anzac 3024 supports AS/400 forms design solutions for forms overlays, such as XPoint's Forms Xpress, and ICS's FormSprint.

Duplexing.

The Anzac 3024D includes the duplexing option. This allows reports to be printed on both sides of the page, in either book style (side by side) or calendar style (computer stationery orientation). System reports can be compressed down to an 8.5" by 11" page, and with duplexing the number of paper pages can also be halved.

Anzac support and maintenance.

Long known for its outstanding maintenance and support operation, Anzac staff are no further than an 800 call away from solving your problems. Ask around, and don't be surprised at the good things you hear. Anzac is the printer supplier of choice for many of the world's largest companies because of the excellent long term support Anzac provides.

3024 Laser printer

TECHNOLOGY

Electrographic Laser 600 x 600 dpi

PRINT SPEED

24 ppm (simplex) 9.5 ppm(duplex)

16 BAR CODES

ZIP/POST NET, Code 3 of 9, Extended code 3 of 9, Code 2 of 5, Code 128, UCC 128, UPC A, UPC E, UPC E 6, Code 93, EAN/JAN, EAN/JAN 8, Code A Bar, MSI, BANKNET

PAPER HANDLING

Paper Type	Cut sheet, Transparencies, Labels
Paper Size	Letter/Legal/Executive/A4/B5/11x17
Paper Weight	16 - 36 Lbs.
Three standard input trays	100, 500, 500 sheets

SIZE

Height	16.5"
Width	21.5"
Depth	23.5"
Weight	106 lbs.

DUTY CYCLE

100,000 pages per month

INTERFACE

Twinax	Internal, with LED and software diagnostics
Emulation	3812-1
Parallel	Intelligent printer sharing, (PCL5)

STANDARD FEATURES

AAPF (Anzac Advanced Printer Function) enhanced support
 16 most popular bar codes - scalable up to 9 times
 Scalable GFID font selection, in addition to 3812-1 fonts.
 Orientation - Portrait, landscape, reverse portrait & landscape
 Bin selection

OPTIONS

Network	Token Ring, Ethernet
High capacity input tray	2,500 pages
Power Envelope Feeder	100 envelope capacity
Output Stacker	2,000 page capacity (8 x 250 page trays)
Postscript	
Duplex	
IPDS
